#### ABSTRACT

This thesis is a study of the Structures of Thai Phuan at Suphanburi Province. The data were collected at Ban Pho Sri, Tambon Bang Plama, Amphoe Bang plama, Suphanburi Province. The main purpose of this study is to study the morphology, word classes, phrases and sentences of Thai Phuan. This thesis is divided into five chapters. Chapter 1 is an introduction. Chapter two is the description of the phonology of Thai Phuan. Chapter 3 is the morphology and word classes. Chapter 4 explains phrase structure and sentence structure. Chapter 5 is the conclusion and suggestions for further studies. The appendix is the word list of Thai Phuan.

Based on this study, word classes are classified from their meaning, position and function into 11 types; nouns, pronouns, verbs, modals, adverbs, classifiers, negators, numerals, determinatives, linkers and final particles. Phrases are classified from their functions and structures into 3 types; noun phrases, verb phrases, and adverb phrases. Sentences are classified from their structures into 3 types ; simple sentence, compound sentence and complex sentence.
